HEADQUARTERS OF CHAPTERS GROUP AG

LETTER TO THE SHAREHOLDERS

Dear shareholders, dear friends of the company,

The first half of 2025 was marked by disciplined execution of the Manuscript Method to deliver organic growth on the one hand and continued inorganic growth on the other hand.

We operate in a decentralized operational model based on autonomy. Decision-making is not centralized; authority rests with the teams closest to the respective customer. To ensure effectiveness within this decentralized framework, clearly defined parameters and accountability are essential.

Manuscript Method fosters authority and accountability, providing the foundation for sustainable, organic growth. By aligning strategic priorities, benchmarking performance, and supporting management teams in pricing, organization, and talent development, Manuscript Method helps translate decentral entrepreneurial strength into group-wide performance.

With the merger of our subsidiaries Fintiba GmbH and Coracle GmbH with Expatrio Global Services GmbH, we concluded a landmark transaction for us both in size but also in strategic relevance for the Group. The merger creates a new player in financial services for international students and expatriates. We are establishing a platform with enormous potential for further, sustainable growth in a dynamic market.

Since closing of the merger, the teams at all three companies have been working together closely to capture synergies and develop additional custom-made solutions to hundreds of thousands of customers.

In conjunction with the merger, we increased our share in the combined group from 55% to 61.7%. Part of the purchase price attributable to the management team of Fintiba is settled in exchange for new CHAPTERS Group shares issued in the capital increase against contribution in kind announced in September 2025.

In the Public and Enterprise segments, we closed nine transactions. In the Public segment in particular, we acquired several companies with strong reputations among customers and robust product offerings that nevertheless required an operational transformation focused on cost discipline, process optimization, and efficiency. Spearheaded by the relevant platform teams, the Manuscript Method provides a robust framework to implement these changes, align the company's long-term strategic goals, and enhance the value delivered to all stakeholders. While these transactions will weigh on operating results this year, we expect them to become increasingly accretive over the medium-to-the-long term, delivering meaningful earnings and value creation.

2025 was also characterized by an emphasis on AI and cyber risk. Both topics will become dramatically more relevant to us over the coming years. While both AI and cyber risk pose threats to our business, we primarily see both areas as opportunity. In fact, we believe AI can enable the creation of new products on top of our existing solutions. On the other hand, bundling cyber risk solutions with our offerings does not only make our customers safer, but it also creates a commercial opportunity for us in cross- and upselling.

In the second half of 2025, the growth of the group continued. With six companies joining the group since June 30, 2025, more than 60 operating companies are now part of CHAPTERS Group. To fund the continuous growth, we also placed a first tranche of our new bearer bond 2025/2030.

We were delighted to welcome so many of you to our AGM in July 2025 in Hamburg, and we look forward to seeing you again next year. We value the personal exchange with you, dear shareholders, and we sincerely thank you for your continued support and trust in the company's development.

Sincerely

Jan-Hendrik Mohr

MANUSCRIPT METHOD IMPROVES ORGANIC GROWTH WHILE MAINTAINING THE ENTREPRENEURIAL ENERGY OF A DECENTRALIZED ORGANIZATION

KEY FIGURES*

REVENUE in EUR MM

OPERATING EBITDA in EUR MM

For the calculation of operating revenue and EBITDA, we include all operating companies in which CHAPTERS owns a majority stake and that are part at the end of the relevant fiscal year of the group with 100% of their full year results in that year.

EARNINGS PER SHARE in EUR

For Earnings per Share, the net income for the fiscal year of all companies belonging to the group at the end of the relevant fiscal year is taken into account with the share attributable to CHAPTERS Group AG and divided by the number of shares outstanding at the end of the relevant year. For the calculation, all accounting related effects (e.g. goodwill depreciation) on the consolidated net income are excluded.

* CHAPTERS Group has only been preparing consolidated interim financial statements since the first half of 2022. Therefore, figures for the first half of 2021 are not available.

INSIDE CHAPTERS GROUP

In the first six months of 2025, CHAPTERS Group AG continued its steady expansion. As of June 30, the Group comprised 55 operating companies. Building on the foundation established in recent years, CHAPTERS continued to strengthen its position as the home for mission-critical digital solutions.

Our three-segment structure **Public Sector**, **Enterprise** and **Financial Technologies** has proven to be a clear and effective framework for growth. Each segment follows its own strategic logic: regulatory stability and long-term customer relationships in the Public sector, digital transformation and efficiency gains in Enterprise software, and technological innovation and scalability in Financial Technologies. This segmentation enables a focused capital allocation and supports collaboration between companies that share similar markets and customer needs.

Segment data is presented on a fully consolidated basis for all companies in which CHAPTERS owns a majority stake with 100% of their revenue for the first half of 2025.

Segment	H1 Revenue (EUR MM)	Operating Companies	Comment
Public Sector	37.6	27	Software for utilities, public administration, social services, and transportation.
Enterprise	25.3	24	Includes ERP, construction tech, CAD/CAM, property management, and orchestral systems.
Financial Technologies	20.4	3	A group of fintech platforms serving international students and expats.
Other	1.2	1	Continuous improvement in operations.

SPOTLIGHT ON ARTIFICIAL INTELLIGENCE

Artificial Intelligence is increasingly influencing the industries in which CHAPTERS and its portfolio companies operate. Our approach is to assess AI not as a trend in itself, but as a technology that must demonstrate measurable value creation. We initiated an ongoing structured review of our portfolio companies together with the platform heads and management teams to evaluate where AI can have an immediate and lasting effect.

To coordinate these activities, CHAPTERS appointed a Chief Technology Officer (CTO) in 2025. The CTO's mandate is to ensure that AI initiatives across the Group remain pragmatic, integrated into business processes, and aligned with the decentralized responsibility of local management teams.

FOCUS AREAS OF AI DEPLOYMENT

ONE

CUSTOMER SERVICE AND CALL DEFLECTION

Several portfolio companies rely on extensive customer support operations. Here, AI-based assistants have already shown that they can successfully resolve or deflect a significant share of routine inquiries. This reduces waiting times, increases first-call resolution rates, and allows human agents to concentrate on complex cases where personal expertise is essential. The result is not only lower costs but also higher customer satisfaction.

TWO

SOFTWARE DEVELOPMENT EFFICIENCY

AI-assisted coding and testing tools are helping developers in our companies accelerate release cycles and reduce error rates. Early adoption of AI-driven code completion tools leads to noticeable improvements in productivity, with teams able to ship product enhancements more frequently while maintaining high quality standards.

THREE

OPERATIONAL INSIGHTS AND BENCHMARKING

Within the Manuscript Method, AI-powered analytics are increasingly being used to support management teams. Automated dashboards highlight deviations from budget or benchmarks earlier and more precisely, enabling managers to take corrective measures more quickly. This reinforces accountability while giving teams better tools for decision-making.

Its core products include modular systems such as PSITraffic TMS (Train Manage-	Part of the Group since March 2025 ment), Depot Management, Operations Control Center and Profahr (Personnel Scheduling). The company provides seamless planning, operations control and passenger information to optimize punctuality and service quality. Its customers are local transport operators.

ProLogic

Part of the Group since April 2025

ProLogic Computer GmbH, based in Rottendorf, is one of the market leaders for industry software in window and door manufacturing since 1985. Its solutions cover all areas from quotation and design to paperless manufacturing and automated parts ordering. Together with NC-HOPS, the entire process chain in window and door manufacturing is covered. Customers are manufacturing companies and dealers in windows and doors who value efficient planning, configuration and process optimization.

Part of the Group since March 2025

Simmeth System GmbH, headquartered in Burghausen, has been a B2B software provider for supply chain management since 2002, focusing on purchasing and supplier management across the entire supplier lifecycle. The core product is a modular information and communication platform for purchasing, risk management and reporting. More than 90 national and international SME and corporate customers—from sectors such as energy supply, logistics, healthcare and machinery production—use the solution to optimize supplier processes, compliance and efficiency.

Part of the Group since March 2025

Cogima Logiciels is a small provider of treasury management software solutions. Based in Pompey, France, the company has been servicing its clients for more than 20 years.

Part of the Group since January 2025

Inedee, based in Colombes (Paris region), is one of the French market leaders for cloud-based ERP systems for communication agencies and marketing companies. The software provides an end-to-end solution from commercial management over project management to finance and accounting. With over 200 agencies and more than 5 000 users relying on it daily, Inedee emphasizes personalized implementation and ongoing support to ensure rapid adoption and alignment with agency-specific needs.

expatrio

Part of the Group since May 2025

Expatrio is a digital platform for international students, professionals and expats moving to Germany. With services such as a blocked account, health insurance and a German bank account, Expatrio offers a comprehensive all-in-one "value package". The platform also provides support with visa requirements and study choices to make the start in Germany easier. Expatrio has already supported over 200,000 users since 2017.

COMBINED INTERIM MANAGEMENT REPORT AS OF JUNE 30, 2025

A. Fundamentals of the Group and CHAPTERS Group AG

BUSINESS ACTIVITIES AND ORIENTATION

CHAPTERS Group AG aims to build the home for mission critical digital solutions. To us, "mission critical" means products and services that are essential for end customers—be it an ERP system or a blocked account for the visa process.

Since our first investment in early 2019, the Group has grown to include more than 50 companies. In the first half of 2025, we continued the strategic realignment begun in 2023, sharpening our focus on specific areas and now structuring our portfolio around three core verticals:

- ❖ Digital Solutions for Public Sector Clients and Civil Institutions ("Public")
- ❖ Digital Solutions for Private Sector Companies ("Enterprise")
- ❖ Digital Solutions for Financial Services ("Financial Technologies")

Each segment follows its own strategic rationale—whether driven by regulatory stability, industry-specific digitalization trends, or platform-scaling opportunities.

This segmentation allows us to strengthen our portfolio through targeted capital allocation in key market verticals, identify value chains, and more effectively capture synergies within the respective clusters.

As we further develop the Group, our three core values serve as guiding principles:

WE THINK IN DECADES

Our investments are made with an unlimited time horizon. Divestitures aimed at short-term value gains are explicitly not part of our strategy. That said, we may pursue divestitures in cases where they enable a company and its management to take the next step on their growth path.

Companies that become part of CHAPTERS Group AG have typically developed their solutions over many years, building on strong customer focus as well as deep market and industry expertise. These solutions are optimally tailored to their clients' needs.

In advancing these companies, we follow a sustainable and entrepreneurial approach. Together with local management and employees, we work to preserve and strengthen long-term competitiveness while continuously improving and expanding the solutions available to customers.

WE GROW TOGETHER

Our investments are typically made through subsidiaries of CHAPTERS Group AG, our platforms. Each platform sets its own strategy and focus, led by its respective management team. By offering equity ownership to the platform teams, we enable them to share in the long-term value creation they help to drive.

WE SERVE THE EDGE

We operate in a decentralized operational model based on autonomy. The companies belonging to the Group come with their individual corporate cultures, which we actively preserve. Decision-making rests with the teams closest to the respective customer rather than being centralized. At the same time, networking and knowledge exchange across the Group—through benchmarking, best practice sharing, and access to centralized resources and experts in key areas—ensure that we effectively foster the continued development of all companies.

OBJECTIVES AND STRATEGY

CHAPTERS Group AG is committed to the sustainable growth of the Group's enterprise value over the long term. As a key indicator of enterprise value development, we measure the long-term development of earnings per share, which has been calculated since 2020. Earnings per share are primarily influenced by the organic development of our companies, inorganic growth, and the Group's financing structure.

SUSTAINABLE DEVELOPMENT OF OPERATING SUBSIDIARIES

Our goal is the long-term and sustainable development of our portfolio companies. This includes targeted growth initiatives such as best practice sharing in areas like sales and pricing.

FURTHER ACQUISITIONS AS GROWTH DRIVER

In recent years, acquisitions of new operating companies have been a central driver of growth. We intend to continue pursuing this path, with a particular focus on acquiring companies active in industries where other Group companies already operate, as well as businesses offering solutions that complement our existing portfolio.

OPTIMIZATION OF THE FINANCING STRUCTURE

Our portfolio companies are characterized by high and stable cash flow conversion. Historically, a portion of purchase prices have been financed with debt capital, while liquidity surpluses from operating companies have been primarily used to repay existing debt financing. This continuous deleveraging creates additional capacity for new financing. Furthermore, optimizing repayment structures toward partial bullet maturities provides additional flexibility to finance future acquisitions with reduced equity requirements.

MANAGEMENT CONTROL SYSTEM

We operate in a decentralized operational model based on **autonomy**. Decision-making is not centralized; **authority** rests with the teams closest to the respective customer—whether within the operating companies or at the platform level in connection with management of the companies or in the identification and evaluation of new investment opportunities, and transaction structuring.

To ensure effectiveness within this decentralized framework, clearly defined parameters and **accountability** are essential. Decision-makers across our organization must take responsibility for results and be open to learning from others.

DISCIPLINED INVESTMENT DECISIONS

The responsibility for identifying and analyzing new investment opportunities lies with our platforms. Together with the platform teams, we have established defined framework parameters for acquisitions, which serve as the basis for investment discussions. Potential acquisitions are presented to CHAPTERS Group AG and reviewed by the Management Board—together with the Supervisory Board if necessary—before a final investment decision is made.

MANUSCRIPT METHOD AS THE FOUNDATION FOR ACCOUNTABILITY

Responsibility for the development of the Group's operating companies rests with the respective platform teams. CHAPTERS Group AG monitors performance through monthly key financial performance indicators, with particular focus on revenue growth and adjusted operating earnings before interest, taxes, and depreciation and amortization (Adjusted EBITDA), benchmarked against both the prior-year period and the budget agreed upon between the respective operating managing directors, platform managers, and CHAPTERS Group AG.

In collaboration with platform managers, we refine our **Manuscript Method**. In addition to best practice sharing, the Manuscript Method comprises a series of standard processes that are to be introduced for implementation across Group companies. These include the definition of strategic priorities for the coming years with corresponding improvement initiatives and action plans, regular reviews of pricing strategies, and a standardized approach to identifying and developing talent within the organization.

Implementation and execution of the Manuscript Method is the responsibility of the platform teams. Monthly review meetings between CHAPTERS Group AG and the platform managers provide a forum to discuss key developments, define corrective measures at an early stage in cases of potential underperformance, and ensure that emerging opportunities are effectively leveraged.

EQUITY PARTICIPATION AS A STRUCTURAL MANAGEMENT INSTRUMENT

A central management instrument within CHAPTERS Group is our investment and incentive structure. Platform managers typically hold equity stakes in the platforms they manage.

For the financing of acquisitions of new operating subsidiaries—and, where required, for capital support to the companies—CHAPTERS Group AG provides shareholder loans bearing an annual interest rate of 10%. This structure creates a clear incentive for all Group companies to pursue only those investments with expected returns well above this threshold, while also encouraging the return of excess liquidity to CHAPTERS Group AG when reinvestment does not promise higher value creation.

B. Business Report

MACROECONOMIC ENVIRONMENT

In the first quarter of 2025, gross domestic product (GDP) in the European Union grew moderately by 0.5% compared to the fourth quarter of 2024¹. In the second quarter of 2025, GDP expanded slightly by 0.2%². In Germany, GDP increased by 0.3% in the first quarter 2025 versus the previous quarter but contracted slightly by 0.1% in the second quarter of 2025³.

Inflation in the European Union rose marginally to 2.8% in January 2025 before declining to 2.3% by June 2025, remaining below the level recorded in the prior-year period⁴.

The inflation rate in Germany was consistently below the EU average in the first half of 2025. It stood at 2.8% in January and eased to 2.0% by June, also below the corresponding figure from the prior year⁵.

BUSINESS PERFORMANCE

In the first half of 2025, the Group successfully continued its growth trajectory. A total of nine vertical market software companies joined the Group through various platforms. Additionally, the merger of Fintiba GmbH and its wholly owned subsidiary Coracle GmbH, acquired in December 2024, with Expatrio Global Services GmbH took place. Furthermore, the spin-off of the GfW Group, whose three operating companies are active in the education sector, was completed.

As of June 30, 2025, the Group held majority stakes in 55 operating companies (December 31, 2024: 48 companies)⁶.

Since March 2024, CHAPTERS Group AG has also been a shareholder of Software Circle plc, an investor in vertical market software companies in the United Kingdom and Ireland. The Group's stake in Software Circle plc decreased from 29.9% to 25.9% in the first half of 2025 due to share sales and further decreased by 4.4 percentage points to 21.5% by the time these interim consolidated financial statements were prepared.

The stake in MedNation AG, which had stood at 20.0% since 2021, increased to 21.5% in the first half of 2025. As in the prior year, CHAPTERS Group AG also holds minority interests in two companies that are not yet operationally active.

¹ European Statistical Monitor Edition: September 2025
² Eurostat Statistical Monitor—Eurostat's commentary, 18 September 2025
³ DESTATIS Statistisches Bundesamt—Pressemitteilung Nr. 278 vom 30. Juli 2025
⁴ European Statistical Monitor Edition: September 2025
⁵ European Statistical Monitor Edition: September 2025
⁶ As in the previous year, the Group also holds a non-listed minority interest. The Company has decided to exclude minority interests from the calculation of key performance indicators.

KEY FINANCIAL FIGURES AS OF JUNE 30, 2025

The Group's continued growth in the first half of 2025 is reflected in the key performance indicators. The **revenue** and **EBITDA** figures presented here are shown on a pro forma basis, including all operating subsidiaries belonging to the Group as of June 30, 2025, for the entire first half of the year.

	06/30/2025	06/30/2024	12/31/2024
Revenue of operating subsidiaries (majority interests)	EUR 84.5 MM	EUR 55.6 MM	EUR 125.8 MM
Adjusted EBITDA of operating subsidiaries (majority interests)	EUR 19.3 MM	EUR 13.3 MM	EUR 30.3 MM
Adjusted earnings per share excluding securities results and share-based compensation	EUR 0.15	EUR 0.08	EUR 0.28
Adjusted earnings per share	EUR -0,16	EUR 0,11	EUR 0,22
Operative Investment Companies (Majority Holdings)	55	45	48
Invested Capital ⁷ <i>Additional capital invested in the acquisition and investments in minority holdings</i>	EUR 543.5 MM ⁸ EUR 29.6 MM ¹⁰	EUR 154.0 MM ⁹ EUR 38.1 MM ¹¹	EUR 246.6 MM ⁹ EUR 38.3 MM

⁷ Invested capital comprises the total amount invested in the acquisition of Group companies (including debt financing and minority shareholders' equity contributions), as well as funds provided by CHAPTERS Group AG for the operating business of subsidiaries. The Company has decided to exclude investments in minority interests from this figure and report them separately. In the case of minority interests, only the amount invested by CHAPTERS Group AG for the acquisition of the respective company is taken into account.
⁸ Includes an amount of EUR 98.1MM representing an implicit equity contribution by minority shareholders in the Financial Technologies segment. This arose from the contribution of shares into the newly established holding company.
⁹ Not including investments made in prior years in the companies of the NGC Group, which are no longer part of the Group
¹⁰ The decrease compared with December 31, 2024, is primarily attributable to the sale of shares in Software Circle AG. In addition, in connection with the merger of Expatrio Global Services GmbH with Fintiba GmbH, the shareholders of Expatrio Global Services GmbH received, as part of the purchase consideration, 36.6% of the limited partnership interests in CHAPTERS Beteiligungen 1 GmbH & Co. KG, which, in turn, holds a 48.9% stake in Frankfurt International Bank AG. The portion attributable to the new shareholders of CHAPTERS Beteiligungen 1 GmbH & Co. KG was reclassified from "Investments in minority interests" to "Invested capital."
¹¹ The figure of EUR 20.7MM as disclosed in the 2024 interim consolidated financial statements does not include the investments relating to the acquisition of shares in Software Circle. This disclosure was incorporated into the consolidated financial statements as of December 31, 2024.

For the calculation of **adjusted earnings per share**, effects on the consolidated result that arise solely from consolidation requirements of the German Commercial Code (HGB) are excluded. These primarily comprise depreciation on assets identified during purchase price allocation, related deferred taxes, and goodwill amortization.

Additionally, the results of subsidiaries are only included in the interim consolidated financial statements from the date of acquisition in accordance with § 301 HGB. For the adjusted earnings per share, however, the results prior to the acquisition are also considered. Unlike for the calculation of operating EBITDA, no further adjustments (e.g., for one-off expenses) are made.

The negative value of EUR -0.16 per share is partly attributable to provisions for share-based compensation. These amounted to EUR 11.13MM in the first half of 2025, compared with EUR 1.90MM in the prior-year period, reflecting the positive development of the share price. This impact alone corresponds to around EUR -0.47 per share. In addition, several companies acquired in the 2024 fiscal year and the early months of 2025 are still in restructuring phases. The Group expects these companies to deliver positive income contributions from the 2026 financial year onward. Furthermore, higher one-off expenses for debt financing and transaction-related costs in the first half of 2025 also impacted the result.

REVENUE AND EBITDA

For the preparation of the interim consolidated financial statements, in accordance with § 301 HGB, results are only included for the period during which the company was part of the Group. In addition to the operating companies, CHAPTERS Group AG, as well as the platform companies and acquisition vehicles, are also included in the interim group financial statement. Costs at the platform and acquisition company level primarily arise from driving further group growth through the evaluation of new acquisitions on the one hand, and the further development of the operating investment companies (e.g., through the establishment of advisory boards staffed with industry experts) on the other.

¹² For the calculation of the reported EBITDA, the reduction in inventories of finished and unfinished goods resulting from purchase price allocation, income from the reversal of provisions, as well as income, losses, and expenses from the disposal of fixed assets are not taken into account. The calculation is provided in the notes on the Group's earnings performance.

RECONCILIATION OF REVENUE TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS 2025

	Revenue in EUR MM
Sum of all operating subsidiaries	84.54
- <i>thereof prior to the acquisition date</i>	19.70
+ <i>thereof prior to the disposal date</i>	6.07
= Operating subsidiaries in interim consolidated financial statements	70.91
+ <i>Platform companies and acquisition companies</i>	0.05
= Value in the interim consolidated financial statements	70.96

RECONCILIATION OF EBITDA TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS 2025

	in EUR MM
Sum of Adjusted EBITDA of all operating companies	19.28
- Adjustments	7.80
= Sum of Reported EBITDA of all operating companies¹²	11.48
- <i>thereof prior to the acquisition date</i>	3.62
+ <i>thereof prior to the disposal date</i>	1.41
= Operating subsidiaries in interim consolidated financial statements	9.27
+ <i>Platform companies and acquisition companies</i>	-1.79
+ <i>CHAPTERS Group AG and holding company (before share-based compensation)</i>	-2.31
= Reported EBITDA before shared-based compensation	5.17
+ Share-based compensation at CHAPTERS Group AG level	-11.13
= Value in interim consolidated financial statements	-5.96

The **adjusted EBITDA** for the first half of 2025 of all operating companies in which CHAPTERS Group AG directly or indirectly held a majority stake as of June 30, 2025, amounted to EUR 19.28MM. The adjustments applied to EBITDA amount to approximately EUR 7.80MM.

Thereof, EUR 0.02MM relates to non-periodic expenses offset against non-periodic income. EUR 1.11MM pertains to start-up costs for companies still in the development phase, with the majority

attributed to companies in the CarMa Group. An amount of EUR 3.43MM related to companies with negative EBITDA that became part of the Group in the fourth quarter of 2024 and the first half of 2025. These companies are currently undergoing restructuring, and the Company expects them to contribute positively to EBITDA as early as the 2026 fiscal year. An amount of EUR 0.36MM related to one-off expenses, primarily external consulting, marketing expenses, and recruitment costs. EUR 0.80MM related to external costs for new product

development. EUR 0.29MM related to transaction costs in connection with dual management structures and, for example, the implementation of profit and loss transfer agreements. Included in the total is EUR 1.78MM in onetime employee bonuses paid in connection with the merger of Fintiba GmbH and Expatrio Global Services GmbH.

ADJUSTED EARNINGS PER SHARE

Inherent to the business model of CHAPTERS Group AG and its subsidiaries, the Group's consolidated result is significantly influenced by the effects of capital consolidation and the resulting depreciation on intangible assets, as well as the reversal of order backlogs identified during purchase price allocation and the associated reversal of deferred tax liabilities. Additionally, depreciation on goodwill has a significant impact on the consolidated result. For the calculation of adjusted consolidated profit, the consolidated annual loss is adjusted for these effects (including the portions attributable to minority interests). Furthermore, as with revenue and EBITDA, the results of companies acquired during the financial year that were generated prior to their acquisition by a Group company are also taken into account (proportionally adjusted for minority interests at various levels). The results from associated companies are only considered for the calculation if they pertain to distributions (after taxes).

¹³ Includes a one-off gain from the sale of companies under NGC Nachfolgekapital GmbH of EUR 0.28 per share in the first half of 2025 and EUR 0.05 per share in full-year 2024.

RECONCILIATION FROM CONSOLIDATED (INTERIM) RESULT TO ADJUSTED EARNINGS PER SHARE

FINANCIAL AND ASSET POSITION OF THE GROUP

EFFECTS OF CAPITAL CONSOLIDATION AND PURCHASE PRICE ALLOCATION ON THE ASSET POSITION

Inherent to the business model of CHAPTERS Group AG and its subsidiaries, the Group's balance sheet is particularly influenced by the results of the capital consolidation of the subsidiaries belonging to the Group. The value of the investment (purchase price plus transaction costs)—typically recognized at the level of the acquiring company—is offset against the revalued equity of the operating company attributable to the acquisition company.

Capital consolidation is conducted using the revaluation method: As part of a purchase price allocation, the material tangible and intangible assets of the respective operating company are identified and, where necessary, revalued. The hidden reserves or hidden liabilities thereby disclosed are recognized in the interim consolidated financial statements and—where depreciable—systematically and, if required, exceptionally depreciated or reversed.

Since the Group companies are active in the service and software sector, where the business model is characterized by low capital intensity and debt, no significant hidden reserves or liabilities were identified in tangible assets and liabilities—apart from one acquired operating property and the telecommunications networks acquired by the CarMa Group. Based on business model analyses, the following intangible assets were identified and valued:

Software: The costs for self-developed software of the subsidiaries were typically not capitalized in their individual financial statements. Within the scope of the purchase price allocation, the software was revalued and, depending on how modern the software solution is, depreciated over three to seven years.

Brand: The companies acquired through the platforms are typically established and recognized in their specific niches, allowing value to be assigned to the respective brand. These identified assets are depreciated over 15 years.

Order Backlog: Particularly the software companies in the group are characterized by a high proportion of maintenance contracts, which are associated with annual maintenance fee payments from customers. Depending on the acquisition date and the notice periods of the contracts, hidden reserves exist at the time of acquisition due to future revenues, which were disclosed during the purchase price allocation. These identified assets are reported in current assets under finished goods and merchandise (from purchase price allocation) and are recognized in profit or loss over the remaining term of the contracts (typically one year).

Deferred tax liabilities accrued for the hidden reserves during the initial consolidation and the resulting timing and valuation differences between the commercial and tax balance sheets. These deferred taxes are recognized in equity upon initial consolidation, without impact on profit or loss. For simplification purposes, an average combined tax rate of 30% was used for companies based in Germany. The country-specific tax rate is used to calculate deferred tax liabilities for companies based abroad. The deferred tax liabilities are released in the consolidated income statement over the useful life of the respective assets.

The difference between the valuation of the investment at the direct parent company and the revalued equity in the fully consolidated subsidiary is recognized in the consolidated balance sheet as **goodwill**, which is depreciated over ten years. Goodwill reflects the long-term business relationships as well as the good operating profitability of

the operating portfolio companies. The valuation date is the respective acquisition date of the subsidiaries.

A negative difference between the investment value at the direct parent company and the revalued equity of the subsidiaries from the purchase price allocation is recognized as a negative capital consolidation difference in the group financial statements at the level of the direct parent company and presented as a liability item after equity. The negative consolidation difference included in the interim consolidated financial statements for 2025 results from the initial consolidation of two companies acquired by CarMa Holding GmbH out of insolvency in the 2023 financial year. Due to their insolvency situation, the purchase price was below the revalued total of the acquired fixed assets. Both companies developed in line with expectations at the time of purchase in the first half of 2025 and are expected to reach break-even in the 2025/26 financial year, so no adjustments due to anticipated losses are made.

There are minority shareholders at various levels in the corporate structure of the CHAPTERS Group. If capital consolidation takes place at the relevant level, the minority shareholders' share in the depreciation and reversal of hidden reserves identified in the purchase price allocation, as well as the goodwill attributable to minority shareholders, are allocated to the share of other shareholders in the interim result or carried-forward equity.

Disposals and derecognitions in the first half of 2025 resulted from companies leaving the scope of consolidation.

¹⁴ Including the effects from currency translation
¹⁵ Including the deferral of an additional EUR 27.7k and effects from currency translation of EUR 30.1k at the level of an operating subsidiary (not triggered by consolidation effects)
¹⁶ Including the deferral of tax assets amounts to EUR 28.4k (previous periods: EUR 56.6k)

FINANCIAL POSITION OF THE GROUP

The Group's **total assets** increased by around 67% in the first half of 2025, rising from EUR 353.74MM as of December 31, 2024, to EUR 591.39MM as of June 30, 2025, driven by ongoing acquisition activity.

The group's **fixed assets** rose in the first half of 2025 from EUR 267.91MM as of December 31, 2024, to EUR 487.82MM as of June 30, 2025, with approximately 79% of this attributable to goodwill¹⁷ and hidden reserves on assets identified as part of purchase price allocation (previous year: 76%).

Property, plant and equipment decreased by EUR 0.52MM in the first half of 2025 to EUR 10.13MM.

Financial assets increased from EUR 49.68MM to EUR 50.39MM in the first half of 2025. This includes a securities portfolio of EUR 10.86MM (December 31, 2024: EUR 8.65MM), mainly held by CHAPTERS Group AG as the parent company, while Group companies also hold securities on a smaller scale. Further details on the composition of the securities portfolio can be found in the presentation of the financial position of CHAPTERS Group AG as the parent company.

Also included here are the **shares in associated companies** held by CHAPTERS Group AG or its wholly owned subsidiary CHAPTERS Beteiligungsgesellschaft mbH, amounting to EUR 35.68MM (December 31, 2024: EUR 38.02MM). The shares in associated companies are valued at acquisition costs less dividends received since the investment and the cumulative results of the respective company. If the acquisition costs exceed or fall below the book equity of the respective company at the acquisition date, the difference is recognized in profit or loss over ten years. This recognition is included in the results from associated companies.

Other loans amounted to EUR 2.74MM in the first half of 2025 (prior year: EUR 1.24MM). Of this, EUR 1.45MM relates to a seller loan (including accrued

interest) granted by CHAPTERS Beteiligungsgesellschaft mbH in connection with the spin-off of the GfW Group in 2025, and EUR 1.26MM relates to a seller loan (including accrued interest) granted by CHAPTERS Beteiligungsgesellschaft mbH in connection with the spin-off of the ENTRO Group in 2024.

Current assets increased from EUR 82.53MM as of December 31, 2024, to EUR 99.87MM as of June 30, 2025. Of this amount, EUR 52.20MM consisted of cash and cash equivalents (December 31, 2024: EUR 58.51MM), of which around EUR 8.44MM (December 31, 2024: EUR 26.52MM) was attributable to CHAPTERS Group AG and its three wholly owned direct subsidiaries.

Work and services in progress increased from EUR 1.10MM to EUR 6.02MM in the first half of 2025. The increase is primarily due to the addition of subsidiaries acquired in the first half of 2025.

The increase in **finished products and goods** from EUR 3.24MM to EUR 7.86MM is primarily due to hidden reserves disclosed during the purchase price allocation related to existing contracts.

Trade accounts receivables amounted to EUR 20.22MM as of June 30, 2025, an increase of EUR 9.88MM in the first half of 2025. Of this amount, EUR 10.67MM relates to companies that became part of the Group in the first half of 2025. From companies deconsolidated in the first half of 2025, EUR 0.37MM was derecognized.

Other assets amounted to EUR 12.93MM as of June 30, 2025 (December 31, 2024: EUR 8.97MM). The increase of EUR 3.97MM is primarily due to the deposit into an escrow account (EUR 2.76MM).

Prepaid expenses amounted to EUR 2.20MM (December 31, 2024: EUR 1.81MM) and relate to prepaid expenses for invoices paid in the first half of 2025 that economically relate to the second half of 2025 or to the 2026 financial year. The value as

of December 31, 2024 included an amount of EUR 0.53MM in relation to the disagio on the perpetual bond issued by CHAPTERS Group AG in May 2020, which was recognized as profit over the first five years of its term. The company prepaid the perpetual bond in full in May 2025.

The **group's equity** amounts to EUR 285.03MM as of June 30, 2025 (December 31, 2024: EUR 224.99MM). The equity ratio of the group is 48.2% (December 31, 2024: 63.6%). As a result of the capital increase by cash contribution registered on April 7, 2025, by CHAPTERS Group AG as the parent company, equity increased by EUR 16.49MM, of which EUR 0.47MM is allocated to share capital. An amount of EUR 16.02MM is allocated to the capital reserves.

The **currency difference from revaluation**, amounting to EUR 1.29MM (December 31, 2024: EUR 1.38MM), results from the Czech subsidiary added to the group in the 2023 fiscal year and the Swiss subsidiary newly added to the group in the 2024 financial year. Due to different exchange rates at the acquisition date and the preparation of the interim group financial statements, a difference arises in the revalued assets from purchase price allocation, which is offset through this item.

The increase in **non-controlling interests** is primarily driven by to the merger of Fintiba GmbH with Expatrio Global Services GmbH. The companies were merged into a new holding company in May 2025, in which CHAPTERS Group AG (indirectly) holds 61.74%, with the remaining shares primarily held by the management teams of both companies.

The **difference from capital consolidation** amounting to EUR 2.32MM (December 31, 2024: EUR 2.14MM), results from the consolidation of two companies acquired by CarMa Holding GmbH out of insolvency in the 2023 financial year. Due to their insolvency situation, the purchase price paid was below the revalued amount of the acquired assets. Both companies developed positively in

the first half of 2025, as expected at the time of acquisition, and are expected to reach break-even in 2025/2026. Accordingly, no adjustment was required for anticipated losses.

The **special items** amounting to EUR 1.59MM (December 31, 2024: EUR 1.62MM) relates to subsidies received in the past for the expansion of a fiber optic network by a company in the Glasfaser-Direkt Group. The received subsidy is recorded as a liability and recognized in profit or loss over the useful life of the subsidized network through other operating income.

Provisions amounted to EUR 42.93MM as of June 30, 2025 (December 31, 2024: EUR 19.20MM). Of this total, EUR 9.08MM related to tax provisions (December 31, 2024: EUR 7.03MM). The increase is mainly attributable to the Group's growth. Around EUR 3.40MM of the tax provisions relate to companies that became part of the consolidation scope in the first half of 2025. Pension provisions and similar obligations amounted to EUR 3.80MM (December 31, 2024: EUR 0.00MM), resulting from a subsidiary acquired in the first half of 2025.

¹⁷ Of this amount, EUR 0.17MM (prior year: EUR 0.12MM) relates to goodwill already recognized in the acquired companies prior to their acquisition by CHAPTERS Group AG and its subsidiaries.

Other provisions increased from EUR 12.17MM to EUR 30.05MM, including EUR 14.79MM for share-based compensation at the level of CHAPTERS Group AG (December 31, 2024: EUR 3.66MM). The share-based compensation was introduced in the 2023 fiscal year. Further details on the calculation of provisions can be found in the subsequent notes on the financial and asset position of CHAPTERS Group AG. In addition, EUR 2.94MM were recognized for potential earn-out payments and transaction costs. Hereof, an amount of EUR 0.99MM related to transactions carried out in the first half of 2025.

Liabilities amounted to EUR 223.89MM as of June 30, 2025 (December 31, 2024: EUR 86.74MM). An amount of EUR 62.81MM has a remaining term of less than one year (December 31, 2024: EUR 25.95MM), EUR 28.82MM has a remaining term between one and five years (December 31, 2024: EUR 38.61MM), and EUR 132.26MM has a remaining term of more than five years (December 31, 2024: EUR 22.18MM).

The value as of December 31, 2024 also included EUR 16.00MM in the perpetual issued by CHAPTERS Group AG in May 2020. The bond was fully repaid in May 2025.

Liabilities to credit institutions increased from EUR 43.35MM to EUR 100.71MM in the first half of 2025. For transactions already completed in prior years, bank financing of EUR 35.17MM was raised, EUR 0.83MM of which was used to refinance existing bank loans and EUR 34.33MM to repay shareholder loans provided by CHAPTERS Group AG. For transactions conducted in the first half of 2025, new financing of EUR 35.00MM was obtained. At the operating level, an additional EUR 0.95MM was borrowed. Repayments (in addition to the EUR 0.83MM used for refinancing) amounted to EUR 4.26MM. The assumption of liabilities from companies that joined the Group in the first half of 2025 resulted in an increase of EUR 0.13MM, while the deconsolidation of companies led to a decrease of

EUR 8.10MM. Accrued interest added EUR 0.16MM as of June 30, 2025.

Trade accounts payable amounted to EUR 6.74MM, primarily consisting of obligations for purchased services at the level of operating subsidiaries, and increased by EUR 2.40MM in the first half of 2025. For companies that were already part of the Group in the financial year 2024, trade payables decreased by EUR 0.98MM. Companies that joined the Group in the first half of 2025 added EUR 3.71MM. The disposal of companies reduced this item by EUR 0.35MM.

Other liabilities amounted to EUR 113.22MM (December 31, 2024: EUR 22.89MM), including EUR 99.64MM (December 31, 2024: EUR 14.25MM) in **liabilities to sellers**. In the first half of 2025, EUR 3.21MM in seller loans were repaid. In connection with transactions in the first half of 2025, EUR 88.17MM in seller loans were deferred. Accrued interest on seller loans accounted for EUR 0.43MM.

Additionally, other liabilities included EUR 3.00MM (December 31, 2024: EUR 2.80MM) in **liabilities to minority shareholders**. In the first half of 2025, minority shareholders provided an additional EUR 0.47MM in shareholder loans in connection with transactions. The disposal of companies reduced this item by EUR 0.43MM. Accrued and retained interest added EUR 0.17MM in the first half of 2025.

Deferred income increased by EUR 13.38MM to EUR 23.56MM as of June 30, 2025. Approximately 31% (EUR 7.35MM) of the amount as of June 30, 2025 related to companies newly included in the scope of consolidation. For companies that were already part of the consolidation scope as of December 31, 2024, the increase was mainly attributable to the deferral of revenues from (software) maintenance contracts recognized during the preparation of the interim group financial statements. These contracts typically provide for invoicing of the full annual amount in January of each year.

Deferred tax liabilities amounted to EUR 12.06MM (December 31, 2024: EUR 8.85MM), primarily resulting from purchase price allocation carried out in the context of capital consolidation.

LIQUIDITY POSITION OF THE GROUP

In the reporting period (January 1, 2025, to June 30, 2025), the CHAPTERS Group AG Group reported a **positive cash flow from operating activities** of EUR 15.73MM (prior-year period: January 1, 2024, to June 30, 2024: EUR 8.83MM).

The **cash flow from investing activities** amounted to a total of EUR -82.95MM (prior-year period: EUR -35.01MM), of which EUR 94.20MM (prior-year period: EUR 22.44MM) was disbursed for the acquisition or increase in stakes in operating subsidiaries. The disposal of companies from the scope of consolidation resulted in a cash inflow of EUR 8.90MM, of which EUR 4.18MM was attributable to CHAPTERS Group AG.

The cash flow from disposals of financial assets amounting to EUR 8.35MM (prior-year period: EUR 19.17MM) incurred solely at the level of CHAPTERS Group AG as the ultimate parent company and primarily related to investments in the company's securities portfolio.

The sale of securities resulted in a cash inflow of EUR 7.16MM at the level of CHAPTERS Group AG and EUR 0.10MM at the level of subsidiaries. Additionally, a cash inflow of EUR 4.25MM was generated from the sale of shares in Software Circle plc, included among associated companies.

Cash flow from financing activities amounted to EUR 55.60MM (prior-year period: EUR 12.84MM). At the level of CHAPTERS Group AG, a capital increase was conducted in April 2025 through the issuance of 471,219 new shares at an issue price of EUR 35 per share, generating proceeds of EUR 16.49MM for the Company.

Subsidiaries raised new debt financing of EUR 70.26MM (prior-year period: EUR 31.63MM). Of this amount, EUR 0.83MM relates to the refinancing of existing liabilities, which is included in repayments. In addition, EUR 24.11MM (prior-year period: EUR 5.00MM) was used for the repayment of existing debt financing. This included EUR 15.87MM for the redemption of the perpetual bond at the level of CHAPTERS Group AG and EUR 3.21MM (prior-year period: EUR 2.21MM) for the repayment of seller loans from previous years. Newly raised seller loans are not included, as they are non-cash.

Cash and cash equivalents of EUR 8.13MM were acquired through the acquisition of new operating subsidiaries by platform companies, while the disposal of companies from the consolidation scope resulted in a cash outflow of EUR 2.79MM.

Currency translation effects on cash and cash equivalents arose from the Czech subsidiary (consolidated since 2023) and the Swiss subsidiary (consolidated since 2024), due to different exchange rates applied as of December 31, 2024, for year-end balances and as of June 30, 2025, for conversion.

Overall, **cash and cash equivalents** decreased from EUR 58.51MM as of December 31, 2024, to EUR 52.20MM as of June 30, 2025.

FINANCIAL AND ASSET POSITION OF CHAPTERS GROUP AG (PARENT COMPANY)¹⁸

The company's **total assets** as of June 30, 2025, increased by EUR 9.31MM compared to December 31, 2024, to EUR 280.84MM.

Taking into account the half-year result of EUR -3.84MM and the increase in capital by EUR 16.49MM as part of the capital increase against cash contribution in April 2025, the company's **equity** as of June 30, 2025, rose to a total of EUR 262.58MM (December 31, 2024: EUR 249.93MM).

The increase in **provisions** from EUR 5.28MM as of December 31, 2024, to EUR 17.15MM is primarily attributable to the recognition of additional provisions amounting to EUR 11.13MM in connection with share-based compensation. In the 2023 financial year, the Supervisory Board of the company established a stock option plan ("Virtual Share Option Plan", "VSOP") for the Management Board of the company. In the 2024 and 2025 fiscal years, the stock option plan was extended to additional employees of the company. As of June 30, 2025, a total of 701,667 virtual shares had become non-forfeitable ("vested"). The options were valued as of June 30, 2025, using the Black-Scholes model with a value ranging between EUR 18.17 and EUR 21.26 per option, and corresponding provisions were recognized.

Shares in affiliated companies increased from EUR 43.47MM to EUR 74.42MM in the first half of 2025.

As in the previous year, the **participations** include the shares held by CHAPTERS Group AG in NPV Nachfolge Beteiligungen GmbH, the shareholding in MedNation AG, based in Bonn (ISIN DE0005653604) and in Software Circle plc, based in Manchester (ISIN GB0009638130). These investments are recognized at acquisition cost.

In its role as Group holding company, CHAPTERS Group AG provides the necessary funds for the acquisition of new portfolio companies by the platform companies and, to a lesser extent, for financing the development of operations, either in the form of **shareholder loans or contributions to the capital reserves of subsidiaries**. In financing the acquisition of operating companies, a portion of the purchase price is typically financed through debt capital provided by banks. If, during the transaction process, bridge financing is required for the period between the acquisition and the provision of external debt, it is provided in the form of shareholder loans. Refinancing typically occurs within a few weeks.

Bridge loans and accrued interest are recognized under current assets as receivables from affiliated companies and investments. As of June 30, 2025, this amounted to EUR 35.46MM (December 31, 2024: EUR 46.31MM).

Shareholder loans that are not intended to be repaid through short-term refinancing but are to be repaid over the coming years from the operating cash flow of the acquired companies are recognized under fixed assets as loans to affiliated companies and investments due to their long-term nature. The total amount of such long-term shareholder loans increased by EUR 8.45MM in the first half of 2025 to EUR 130.96MM.

Receivables and other assets continue to include corporate tax refund claims for the year 2022.

Additionally, CHAPTERS Group AG invests some of the funds in securities as part of its **liquidity management**. In the first half of 2025, the securities portfolio was expanded. As of June 30, 2025, the market value of the securities portfolio (excluding shares in MedNation AG) amounted to EUR 10.64MM (December 31, 2024: EUR 8.27MM).

Equity investments are valued in accordance with the lower of cost or market principle under commercial law (§ 253 (3) sentence 5 HGB) at the lower of acquisition cost and market value as of June 30, 2025, whereby a write-down on the market value is only made if the market value is at least 5% below the acquisition cost. Bond investments are valued at the lower of acquisition cost or nominal value. From the Company's perspective, there was no credit or liquidity risk associated with these securities as of the reporting date.

The balance sheet value of EUR 10.55MM is slightly below the market value as of June 30, 2025. As of June 30, 2025, the portfolio comprised a total of ten securities: one convertible bond, one corporate bond, and eight equities. Based on market values as of June 30, 2025, the share of individual securities in the total portfolio ranged between 2.9% and 51.0%.

LIQUIDITY POSITION OF CHAPTERS GROUP AG

From the capital increase against cash contribution, CHAPTERS Group AG received EUR 16.47MM after costs in April 2025. In addition, the company received EUR 40.74MM in repayments of shareholder loans from the sale of group companies and from debt financing raised by subsidiaries in the first half of the year. Interest on shareholder loans

was paid in the amount of EUR 1.66MM. The inflow from other investments includes EUR 4.25MM in inflows from the sale of shares in Software Circle plc. Disposal and investments in the other securities portfolio resulted in a net outflow of EUR 0.98MM.

The funds were used for the issuance of new shareholder loans and equity investments in subsidiaries, as well as the repurchase of the bond.

Structure of securities portfolio on 06/30/2025 (market values)

¹⁸ The commentary on the financial position and assets of CHAPTERS Group AG was included as part of the review of the consolidated interim financial statements; no review of the parent company's separate interim financial statements was performed.

EARNINGS POSITION OF THE GROUP

Revenues in the reporting period amounted to EUR 70.94MM (prior-year period: EUR 50.02MM). The development of revenues from companies that were already part of the consolidation group in the first half of 2024 and those newly added to the Group is shown in the following table.

	Total in EUR MM.	Public in EUR MM.	Enterprise in EUR MM.	Financial Techno- logies in EUR MM.	Other in EUR MM.	Holding companies in EUR MM.
Pro forma revenue H12024	55.61	15.78	15.29	6.55	17.96	0.04
<i>thereof from companies deconsolidated in 2024</i>					9.06	
Revenue from companies already included in the scope of consolidation in 2024	47.61	17.58	16.10	6.59	7.29	0.05
Revenue from companies that became part of the Group in 2025 (pro rata temporis)	23.35	12.15	8.05	3.14		
Consolidated revenue H1 2025	70.96	29.73	24.15	9.73	7.29	0.05

Plus revenue for the months prior to inclusion in the consolidated financial statements	19.70	7.85	1.16	10.68		
Pro forma revenue H1 2025	85.54	37.58	25.31	20.42	1.23	0.00

The **decrease in inventories of finished and unfinished products and work in progress amounted** to EUR 2.28MM (prior-year period: EUR 0.98MM). This comprises a decrease of EUR 0.58MM from the operating activities of the Group companies (prior-year period: EUR 0.25MM) and the reversal of the order backlog identified during purchase price allocation, amounting to EUR 1.70MM (prior-year period: EUR 0.73MM).

Other operating income amounting to EUR 17.04MM (prior-year period: EUR 3.34MM) includes EUR 3.80MM (prior-year period: EUR 2.48MM) from income derived from the disposal of and write-ups on securities at the level of CHAPTERS Group AG. An amount of EUR 11.10MM was attributable to the disposal of companies from the scope of consolidation, of which EUR 9.88MM was cash-effective, and EUR 1.23MM was non-cash-effective, resulting from the disposal of prior years' loss carryforwards (offset against the disposal of profit carryforwards where relevant).

Cost of materials amounted to EUR 8.98MM (prior-year period: EUR 9.13MM). The cost of materials ratio was 13% and decreased compared to the prior-year period (18%) and the full year 2024 (17%), driven by higher revenue.

Personnel expenses amounted to EUR 50.82MM (prior-year period: EUR 24.26MM), of which EUR 11.13MM (prior-year period: EUR 1.90 MM) related to share-based compensation under the VSOP at the level of CHAPTERS Group AG. In addition, transaction bonuses totaling EUR 2.04MM were paid to employees (of which EUR 1.78MM related to the merger of Fintiba GmbH and Expatrio Global Services GmbH). Adjusted for this effect, the personnel expense ratio was 53.0% and thus increased compared to 44.7% for the first half of 2024 and 49.6% for the full year 2024. The increase is primarily due to the deconsolidation of companies in the first half of 2025 that reported a relatively low personnel expense ratio and generated a large portion of their costs through purchased

services. Due to the lower weight of these companies in the first half of 2025, the personnel expense ratio will increase.

Depreciation and amortization amounted to EUR 16.72MM (prior-year period: EUR 8.81MM), of which EUR 3.12MM (prior-year period: EUR 1.44MM) related to the depreciation of hidden reserves on assets identified in the course of purchase price allocation and EUR 12.01MM (prior-year period: EUR 6.30MM) to depreciation of goodwill arising essentially from capital consolidation. An amount of EUR 5.78MM of the total increase in these two items (depreciation of hidden reserves on assets identified in the course of purchase price allocation and depreciation of goodwill) resulted from the inclusion of additional companies in the Group in the second half of 2024 and the first half of 2025. In addition, the depreciation at companies acquired between January 1, 2024, and June 30, 2024, became relevant for the full reporting period for the first time as of June 30, 2025. The disposal of companies in the second half of 2024 led to a reduction of EUR 0.60MM compared to the prior-year period.

Other operating expenses amounted to EUR 19.08MM (prior-year period: EUR 11.76MM). The prior-year figure included EUR 1.49MM in losses from the disposal of fixed assets, arising from disposals from the securities portfolio of CHAPTERS Group AG. For the first half of 2025, expenses from currency translation, expenses related to other periods, and losses from impairments of current assets totaling EUR 1.07MM (prior-year period: EUR 0.40MM) were recognized. A detailed breakdown of ordinary operating expenses amounting to EUR 18.00MM (prior-year period: EUR 11.36MM) is included in the condensed notes to the consolidated interim financial statements 2025.

For the calculation of **EBITDA** (earnings before interest, taxes, depreciation, and amortization) amounting to EUR -5.95MM at Group level (prior-year period: EUR 5.60MM), in addition to depreciation, the decrease in inventories of finished goods resulting from the reversal of order backlogs identified in the course of purchase price allocation is added back to earnings before taxes. Furthermore, expenses and income from currency translation are adjusted, and income and losses from the disposal of non-current assets, as well as related costs, are not taken into account in the calculation.

	01/01/- 06/30/2025 in EUR MM	01/01/- 06/30/2024 in EUR MM	01/01/- 12/31/2024 in EUR MM
Earnings before interest and taxes (EBIT) according to the consolidated income statement	-9.88	-1.58	-4.67
+ Increase in inventory from purchase price allocation	1.70	0.73	2.02
+ Depreciation and amortization	16.72	8.81	20.37
± Expenses/income from currency translation	-0.25	0.21	0.37
- Income from disposal and appreciation of fixed assets	-14.90	-2.59	-6.47
+ Losses from the disposal of fixed assets	0.66	0.00	0.08
+ Sales and start-up costs (other operating expenses)	0.00	0.02	0.07
= EBITDA after result from disposals of non-current assets	-5.95	5.60	11.77
+ Expenses in relation to share-based compensation	11.13	1.90	2.79
= EBITDA after result from disposals of non-current assets and before share based compensation	5.18	7.50	14.56

The **financial result** amounted to EUR -6.46MM (prior-year period: EUR -2.79MM) and includes the following items:

- ❖ The **result from associated companies** amounted to EUR -0.35MM (prior-year period: EUR -0.13MM). The composition of the result can be found in the condensed notes to the consolidated interim financial statements.
- ❖ **Income from other securities and loans held as financial assets** amounted to EUR 0.12MM (prior-year period: EUR 0.06MM) and in the first half of 2025 mainly related to dividends and interest on equities and bonds held in the securities portfolio managed by CHAPTERS Group AG as well as and interest income from shareholder loans to associated companies.

❖ **Other interest and similar income** amounted to EUR 0.63MM (prior-year period: EUR 0.55MM) and mainly resulted from interest on bank deposits. Other than in the first half of 2024, no interest income on CHAPTERS Group AG's own holdings in the perpetual bond was recognized as the bond was repaid in full in May 2025.

❖ **Interest and similar expenses** of EUR 6.05MM (prior-year period: EUR 2.51MM) comprised EUR 0.40MM in interest expense from the perpetual bond at the level of CHAPTERS Group AG, EUR 0.30MM in interest expense on shareholder loans from minority shareholders, and EUR 5.33MM in interest expense at the level of subsidiaries, mainly from bank and vendor loans taken out to refinance purchase price payments. The increase resulted from the additional raising of bank financing in the context of ongoing acquisition activities.

❖ **Write-downs on financial assets** amounted to EUR 0.82MM (prior-year period: EUR 0.75MM). EUR 0.03MM were entirely attributable to write-downs on securities in the securities portfolio managed by CHAPTERS Group AG. Further information on the securities portfolio is provided in the presentation of the financial and asset position, as well as the results of operations of CHAPTERS Group AG. In addition, an amount of EUR 0.79MM impairment on loans to associated companies is included.

Taxes on income and earnings amounted to EUR 1.47MM (prior-year period: EUR 1.51MM), with EUR 1.35MM (prior-year period: EUR 0.63MM) from the reversal of deferred tax assets and liabilities (primarily resulting from purchase price allocation) offset against taxes incurred at the level of individual Group companies of EUR 2.81MM (prior-year period: EUR 2.14MM).

The **consolidated half-year loss** amounted to EUR 17.84MM (prior-year period: EUR 5.91MM). Of this, an amount of EUR 1.76MM (prior-year period: EUR 1.43MM) was attributable to minority shareholders at various levels of the Group, and an amount of EUR 16.07MM (prior-year period: EUR 4.48MM) to the parent company of the Group. For consolidation-related effects on Group earnings, reference is made to the reconciliation from consolidated loss to adjusted earnings per share in the section on business performance.

²⁰ The explanations regarding the earnings position of CHAPTERS Group AG have been included in the review of the consolidated interim financial statements; a review of the standalone financial statements has not been conducted.

EARNINGS POSITION OF CHAPTERS GROUP AG (PARENT COMPANY)²⁰

CHAPTERS Group AG primarily operates as a holding company. Revenue of EUR 1.41MM (prior-year period: EUR 0.06MM) in the first half of 2025 resulted from the passing on of costs borne by CHAPTERS Group AG (mainly for personnel) to subsidiaries (platforms).

Interest income from shareholder loans (including loans to companies in which CHAPTERS Group AG holds a minority stake) as well as interest-like income from affiliated companies amounted to EUR 6.95MM (prior-year period: EUR 4.35MM). The significant increase in interest income reflects investment activity in the second half of 2024 and the first half of 2025, and the resulting increase in shareholder loans provided by CHAPTERS Group AG for acquisitions. Interest income of EUR 0.19MM (prior-year period: EUR 0.25MM) was generated on bank deposits and other long-term loans in the first half of 2025. The prior-year result also included non-cash interest income of EUR 0.13MM from the Company's own holdings in the perpetual bond. The Company fully repaid the perpetual bond in May 2025; the shares held by the company, as well as the associated interest, were already offset in 2024 against the interest expenses.

Interest expenses for the reporting period amounted to EUR 0.42MM (prior-year period: EUR 0.96MM).

The **securities result** of CHAPTERS Group AG amounted to EUR 3.66MM in the first half of 2025 (prior-year period: EUR 1.74MM) and consisted of EUR 0.35MM in realized gains (prior-year period: EUR 2.27MM), which, together with the reversal of prior-year write-downs on securities of EUR 1.14MM (prior-year period: EUR 0.22MM) and the release of prior-year write-downs of EUR 2.31MM, is included in **other operating income**.

Write-downs on securities held as fixed assets amounted to EUR 0.03MM as of June 30, 2025 (prior-year period: EUR 0.75MM). In addition, a write-down of EUR 0.79MM was recognized on one of the loans to companies in which a participation is held. This relates to a shareholder loan to one of the Company's minority holdings. The Company is currently in discussions regarding the potential sale of this entity with the intention of agreeing on a recovery certificate ("Besserungsschein") for the loan.

Losses from the disposal of non-current assets amounted to EUR 0.34MM in the first half of 2025 (measured against original acquisition costs). Taking into account the reversal of write-downs recognized in the prior year, this results in a loss under the General German Commercial Code (HGB) of EUR 0.17MM. **Dividend income and income from bond investments** amounted to EUR 0.05MM (prior-year period: EUR 0.00MM).

The expenses of CHAPTERS Group AG as an individual company mainly related to personnel expenses, as well as legal and consulting costs, as well as costs incurred due to the company's legal structure, which are included in other operating expenses.

Personnel expenses in the first half of 2025 amounted to EUR 12.27MM (prior-year period: EUR 2.21MM). Of this, EUR 11.13MM related to provisions recognized in connection with share-based compensation under a Virtual Share Option Plan (VSOP). The remaining increase in personnel expenses was attributable to the recruitment of additional staff at the level of CHAPTERS Group AG. Not included is the personnel expense for the position of Chief Operating Officer for the Business Software segment, created in March 2024. These personnel costs are borne by a wholly owned subsidiary of

the Company and invoiced to CHAPTERS Group AG; the corresponding amount is included in other operating expenses in the individual interim financial statements of CHAPTERS Group AG.

Other operating expenses in the first half of the year amounted to EUR 2.68MM compared to EUR 1.00MM in the prior-year period. The increase in ordinary operating expenses of EUR 1.68MM was, among other things, due to higher legal and consulting costs in relation to the ongoing strategic development.

As of June 30, 2025, the Company reported a **half-year net loss** of EUR 3.84MM (prior-year period: half-year net profit of EUR 2.27MM). As a result, the accumulated loss increased to EUR 6.81MM (December 31, 2024: EUR 2.97MM).

C. Risk and Opportunity Report

CHAPTERS Group AG pursues the objective of increasing the Group's enterprise value on a long-term and sustainable basis. To this end, the existing portfolio of equity investments is to be further expanded over the coming years, and the value of the existing portfolio companies continuously increased.

In principle, CHAPTERS Group AG, as a group, benefits from the diversified structure of its operating portfolio companies, so that positive developments in other companies can mitigate the effects of a potentially below-plan performance of individual operating companies.

The key opportunities and risks for the Group as a whole, as well as for CHAPTERS Group AG as the parent company, essentially arise from further growth through the acquisition of additional portfolio companies and are presented in the combined management report for the 2024 fiscal year.

There were no material changes in the assessment of opportunities and risks during the reporting period compared with those presented in the combined management report for the 2024 financial year.

D. Outlook Report

A central theme in the Group's development over the past two years has been a stronger focus on the three segments Public, Enterprise and Financial Technologies as well as the establishment of a culture of organic growth within our companies.

We define organic growth as the full-year results for a financial year based on the respective Group structure as of June 30 of that year, compared with the full-year results of the same Group structure for the preceding fiscal year. For organic growth in 2025, the full-year results for 2025 based on the Group structure as of June 30, 2025, are compared with the full-year results for 2024 for that same Group structure.

The 55 operating companies that were part of the Group as of June 30, 2025, generated revenue of EUR 172MM and adjusted operating EBITDA of EUR 42MM in the 2024 financial year. The Company continues to expect that organic growth in adjusted operating EBITDA will be achieved in the low double-digit percentage range (10–13%). With the publication of the preliminary figures on September 9, 2025, the revenue forecast has been revised downward compared to the forecast in the management report for the 2024 financial year. While organic revenue growth slightly above the 10–13% range is expected in the Financial Technologies segment, weaker revenue growth compared to the initial forecast is anticipated in the Public and Enterprise segments due to lower revenues in the Professional Services area. Overall, the Company expects organic revenue growth in the mid-single-digit percentage range.

Between June 30, 2025, and the date of preparation of the H1 2025 consolidated interim financial statements, six additional companies have joined the Group. These companies generated revenue

of c. EUR 16MM and adjusted operating EBITDA of c. EUR 2MM in the 2024 financial year. The platforms of CHAPTERS Group AG continuously evaluate the acquisition of additional operating subsidiaries within their respective markets and related strategies, and we expect that further transactions may still be executed in 2025. However, no forecast can be made regarding the volume and timing of further acquisitions. A forecast for the absolute amount of Group revenue and Group EBITDA for the current 2025 fiscal year, therefore, cannot be provided reliably. The Group is developing dynamically and seizes opportunities where they are deemed sensible and financing is available.

The main contribution to earnings at CHAPTERS Group AG level as holding company is the interest income from the shareholder loans to finance the acquisition of the operating portfolio companies. For interest income from shareholder loans, we expect income to amount to EUR 15 to 17MM, slightly above the previous expectation of EUR 12 to 14MM.

With respect to the operating costs of CHAPTERS Group AG, the Company expects costs to be above the previous expectation of EUR 4.5 to 5MM, at EUR 5.5 to 6MM, primarily due to transaction-related costs (legal fees and placement costs) in connection with the issuance of the bearer bond in August 2025. Costs passed on within the Group and share-based compensation are not included.

Consolidated Statement of Changes in Equity
as of June 30, 2025

Attributable to the shareholders of the parent company						
	Share capital in EUR '000	Capital reserve in EUR '000	Currency translation difference from revaluation in EUR '000	Loss carried forward in EUR '000	Consolidated net loss for the year in EUR '000	Total in EUR '000
As of January 01, 2025	22,986.03	229,909.73	1,382.86	-29,793.97	0.00	224,484.64
Capital increase 2025	471.22	16,021.45				16,492.67
Profit distributions						0.00
Changes in the scope of consolidation						0.00
Current translation adjustment from currency conversion			-88.85			-88.85
Other changes						0.00
Consolidated result					-16,079.47	-16,079.47
Balance as of June 30, 2025	23,457.25	245,931.18	1,294.00	-29,793.97	-16,079.47	224,808.99

The amount attributable to non-controlling interests before the revaluation reserve, currency translation differences, and the annual result corresponds to the proportional interest of the respective minority shareholders in the share capital and capital reserves of the subsidiaries concerned. The portion of other shareholders in the revaluation reserve arises from capital consolidation. Where minority shareholders hold direct interests in an acquired company, their share resulting from the purchase price allocation is presented here. The portions attributable to the Group are eliminated as part of capital consolidation.

The item "Currency translation difference from remeasurement" stems from the Czech subsidiary added to the Group in fiscal year 2023, the Swiss

subsidiary included in fiscal year 2024, as well as from the Group's interests in associated companies in the UK. Differences between the exchange rates at the acquisition date and those applied in preparing the consolidated interim financial statements give rise to remeasurement differences in assets from purchase price allocation, which are recognized under this item.

"Other changes" comprise adjustments arising from increases or decreases in the Group's shareholdings in subsidiaries. Movements resulting from changes in the scope of consolidation reflect, on the one hand, the effects of deconsolidating companies of the NGC Group and, on the other, the inclusion of new companies in the consolidated group.

Non-controlling interests

Consolidated Cash Flow Statement
from January 1, 2025 to June 30, 2025

The cash and cash equivalents correspond to the balance sheet item "Cash on hand and bank balances". Of this amount, EUR 120.00k (December 31, 2024: EUR 120.00k) has been pledged as collateral for a bank guarantee issued by CHAPTERS Group AG and is therefore subject to restrictions on disposal. An amount of EUR 0.00k (December 31, 2024: EUR 5,239.05k) is held by subsidiaries where the consent of minority shareholders is required for access to the funds. Other non-cash income (previous year expenses) mainly includes the result from associated companies. The exchange rate-related changes in the cash position result from the liquid funds held by subsidiaries located in the Czech Republic, Switzerland, USA and Great Britain.

Further information on the development of the Group's liquidity position can be found in the combined interim management report for the first half of 2025.

Notes to the Condensed Interim Consolidated Financial Statements as of June 30, 2025

A. General Disclosures

CHAPTERS Group AG is headquartered in Hamburg and is registered in the commercial register of the Hamburg District Court under register number HRB 182147. The Company's shares have been traded since June 3, 2005, on the Open Market (Freiverkehr) of the Frankfurt Stock Exchange (WKN 661 830). The Open Market does not constitute a regulated market within the meaning of § 2 (11) of the German Securities Trading Act (WpHG).

CHAPTERS Group AG invests—usually indirectly through subsidiaries—in companies currently exclusively based in Europe and the United States. As of the reporting date, the Company held direct or indirect majority interests in 110 companies (December 31, 2024: 96), of which 68¹ were operating subsidiaries (December 31, 2024: 59). As of the reporting date, the Company also held seven minority interests of more than 20% (December 31, 2024: seven), including two in listed stock corporations. In the case of companies in which CHAPTERS Group AG holds a majority interest and which are based in Germany, these are predominantly small corporations within the meaning of § 267 (1) of the German Commercial Code (HGB).

The consolidated interim financial statements for the period from January 1, 2025, to June 30, 2025, have been prepared in accordance with the provisions of the German Accounting Standard ("DRS") 16 which governs interim financial statements in accordance with the German Commercial Code (HGB). They comprise the consolidated balance sheet, the consolidated income statement, the consolidated cash flow statement, the consol-

idated statement of changes in equity, as well as the condensed notes to the consolidated financial statements (including statement of liabilities and fixed assets). Differences may arise from the use of rounded amounts and percentages due to commercial rounding. The financial year of CHAPTERS Group AG and the majority of its consolidated subsidiaries begins on January 1 and ends on December 31. The consolidated income statement—like the income statements of the companies included—is prepared using the total cost method.

The consolidated interim management report of the CHAPTERS Group AG Group has been prepared in accordance with the provisions of the German Accounting Standard ("DRS") 16 which governs interim financial statements in accordance with the German Commercial Code (HGB) and is combined with the interim management report of CHAPTERS Group AG.

¹ The deviations from the figures in the combined management report result from the consolidation of several legal entities into one operating unit and vice versa.

B. Scope of consolidation and consolidation methods

SCOPE OF CONSOLIDATION

In accordance with § 294 (1) HGB, all companies in which CHAPTERS Group AG holds, directly or indirectly, more than 50% of the capital as of June 30, 2025, are included in the consolidated financial statements. Companies in which CHAPTERS Group AG holds less than 50% indirectly, but where more than 50% of the capital at each level of the ownership chain is held by a Group company, are also included. As of June 30, 2025, there were no companies in which CHAPTERS Group AG held less than 50% of the capital but was entitled to more than 50% of the voting rights.

As of June 30, 2025, the scope of consolidation comprised the parent company and 110 subsidiaries (December 31, 2024: 96), which are fully consolidated. Two companies are not included in the consolidated financial statements by reference to § 296 (2) HGB (December 31, 2024: three).

75 companies are based in Germany (including the parent company), four in Austria (one acquisition company and three operating companies), and one operating company in the Czech Republic. The Czech company also holds 100% of the shares in a company based in the Slovak Republic. 18 companies (one holding platform, six acquisition companies, and eleven operating companies) are based in France (December 31, 2024: 15). Six companies (one holding platform, two acquisition company, and three operating companies) are based in Switzerland. Two companies are based in the United States (thereof one operating company and no longer operating). One company respectively is based in Spain (operating company), Bulgaria (no longer operating), the United Kingdom (operating company) and Poland (operating company).

Seven companies (prior year: seven) in which CHAPTERS Group AG indirectly holds more than 20% but less than 50% of the capital are included in the consolidated financial statements as associated companies using the equity method.

WAIVER OF INCLUSION

For two companies, inclusion was waived with reference to § 296 (2) HGB due to their minor importance for the condensed consolidated interim financial statements.

Tilia Software GmbH, based in Ilsfeld, is a 50% subsidiary of Voigt Software und Beratung AG, which was not operating in fiscal year 2024 and in the first half of 2025.

HUP Benelux B.V., based in AP Bergschenhoek, Netherlands, is a wholly owned subsidiary of HUP GmbH. HUP Benelux B.V. was not operating in fiscal year 2024 and in the first half of 2025.

Both companies were also not included in the consolidated financial statements as of December 31, 2024, and are reported under other equity investments at its book value of EUR 62.00k (corresponding to the proportionate share capital).

CAPITAL CONSOLIDATION

Capital consolidation for companies acquired directly or indirectly by CHAPTERS Group AG from third parties or newly established is carried out using the acquisition method in accordance with § 301 HGB. The carrying amount at the direct parent company of the acquired or newly established entity is offset against the share of the remeasured equity of the subsidiary attributable to these interests. Under the revaluation method applied, the assets, liabilities, prepaid expenses, and special items to be recognized are valued at fair value at the time of initial inclusion in the consolidated financial statements (which, with the exception of Fintiba GmbH, corresponds to the date of acquisition).

For the revaluation of equity, CHAPTERS Group AG (with the support of Baker Tilly GmbH & Co. KG Wirtschaftsprüfungsgesellschaft) performed a purchase price allocation. The revalued assets resulting from the purchase price allocation are rec-

ognized in the consolidated financial statements at the level of the respective acquired subsidiary and depreciated there.

A positive difference between the carrying amount at the direct parent company and the revalued equity of the subsidiaries under the purchase price allocation is recognized as goodwill in the consolidated financial statements at the level of the direct parent company and amortized there.

A negative difference between the carrying amount at the direct parent company and the revalued equity of the subsidiaries within the scope of the purchase price allocation is recognized in the consolidated financial statements at the level of the direct parent company as a negative consolidation difference and reported as an item after equity. The negative consolidation difference is amortized systematically over the weighted average remaining useful life of the acquired deprecia-

ble assets. If the acquired assets consist largely of non-depreciable assets, the treatment of the negative consolidation difference is based on the consumption or disposal of the non-depreciable assets. In this case, the negative consolidation difference is released to income to the extent that the non-depreciable assets are subject to impairment or are derecognized, for example, due to disposal.

The valuation is carried out in accordance with § 301 (2) HGB at the acquisition date of the respective subsidiary. If no interim financial statements are prepared at the acquisition date for transactions occurring during the year, said statements are derived using the pro-rata-temporis method. Subsidiaries acquired in the first half of 2025 are included in the consolidated income statement only with the results generated since the acquisition date.

Where ownership is acquired in stages, the date on which CHAPTERS Group AG obtained control, and the parent-subsidiary relationship was established is taken as the date of initial consolidation and thus also as the date of the transition from equity accounting to full consolidation.

NON-CONTROLLING INTERESTS

In the Group structure of CHAPTERS Group AG, minority shareholders hold interests in subsidiaries at several levels. According to § 307 of the German Commercial Code (HGB), an adjustment item equal to the proportionate equity capital is created for the shares in a subsidiary to be included that are held by shareholders outside the group. In the consolidated income statement, the profits and losses attributable to the other shareholders (including their share of the results from capital consolidation and the related amortization) are reported separately, and the adjustment item in equity is updated accordingly.

Consolidation of liabilities, expenses, and income, and elimination of intercompany results

Receivables and liabilities, revenues, as well as expenses and income within the consolidated group were eliminated. This includes, in particular, (shareholder) loans existing within the consolidated group and the interest incurred on them. No material intercompany profits from transactions between consolidated companies existed.

FOREIGN CURRENCY TRANSLATION

When translating the financial statements of subsidiaries whose functional currency is not the euro, the modified reporting date exchange rate method pursuant to § 308a HGB is applied. According to this method, assets and liabilities are generally translated at the average spot exchange rate on the reporting date. Expenses and income are translated at the average euro exchange rate. Equity items are translated at the historical exchange

rates applicable for the date of initial consolidation. The resulting currency translation differences are recognized in equity under reserves in the item "Currency translation difference from revaluation" and remain there without effect on income until the disposal of the foreign operation.

SHARES IN ASSOCIATED COMPANIES

Shares in associated companies are accounted for at acquisition cost, adjusted for changes in equity of the associated company since acquisition –using the at-equity method. Where the associate prepares interim consolidated financial statements, these are used as the basis; otherwise, the individual financial statements are used. No adjustments are made for accounting or valuation methods or reporting dates that differ from those of the interim consolidated financial statements of CHAPTERS Group AG. The respective annual result after taxes is taken into account for the result of changes in the equity of associated companies. Profit distributions are deducted.

If the acquisition costs at the time of acquisition differ from the share of equity acquired, the difference is recognized in a reconciliation schedule either as a negative consolidation difference or as goodwill and is amortized on a straight-line basis over ten years. It is included in the result from associated companies. If the cumulative loss of the associated company since acquisition by CHAPTERS Group AG exceeds the carrying amount of the investment, the shares are recognized at EUR 1.00 until they are offset by the associated company's subsequent profits.

C. Summary of Significant Accounting Policies and Valuation Methods

The condensed consolidated interim financial statements of the CHAPTERS Group AG Group are prepared on the basis of the interim financial statements of the fully consolidated subsidiaries and the associated companies included using the equity method. For subsidiaries not domiciled in Germany, material differences between local accounting standards and the German Commercial Code (HGB) are eliminated.

The accounting and valuation methods applied are those described in the notes to the audited consolidated financial statements as of December 31, 2024, unless otherwise stated.

Permissible valuation options are exercised uniformly in the interim consolidated financial statements in accordance with § 308 HGB, irrespective of their application in the interim financial statements of the consolidated companies.

Provisions for pensions and similar obligations are being recognized for the first time in the interim consolidated financial statements as of June 30, 2025. These provisions result from the pension obligations of a subsidiary acquired in the first half of 2025.

The pension obligations are determined actuarially using biometric probabilities (Heubeck 2018 G mortality tables by Prof. Dr. Klaus Heubeck) using the projected unit credit method.

The difference according to § 253 (6) HGB amounts to EUR -20.68k.

The amount of the pension obligation (present value of the pension commitments) was calculated using actuarial methods based on the following assumptions:

	%
Discount factor (7-year-average)	1.96
Discount factor (10-year-average)	1.90
Income trend p. a. ¹¹	3.80/0.00
Pension trend	2.50
Fluctuation	0,00

The underfunding from the support fund, which is not recognized in the balance sheet in accordance with § 28 (1) Sentence 2 EGHGB, amounts to EUR 19.00k.

¹¹ Part of the pension commitments were redeemed on December 31, 2006. Salary trends are not relevant for calculation the obligation for this portion.

D. Notes to the Consolidated Balance Sheet

FIXED ASSETS

The changes in the individual fixed assets items, as well as the depreciation for the financial year, can be found in the consolidated Fixed Asset Statement attached as an appendix to the Notes to the Condensed Consolidated Financial Statements.

Shares in associated companies are recognized at their carrying amounts. The carrying amount is adjusted for CHAPTERS Group AG's (or its direct subsidiaries') proportionate share of the associated company's net income and for amortization of goodwill or the reversal of negative consolidation differences. If the cumulative loss of an associated company since CHAPTERS Group AG's acquisition exceeds the carrying amount of the investment, the shares are recognized at EUR 1.00 until they are offset by subsequent profits of the associated company. The difference between the (negative) carrying amount and the balance sheet value amounts to EUR 529.31k (December 31, 2024: EUR 452.69k).

If offsetting the acquisition cost against the proportionate equity of the respective company results in goodwill or a negative consolidation difference (if the acquisition cost is lower than the equity at the acquisition date), this difference is amortized or released to income on a straight-line basis over ten years from the acquisition date. The cumulative amortization of goodwill arising in prior years in connection with associated companies amounts to EUR 1,370.32k, of which EUR 473.63k relates to the first half of 2025. As of June 30, 2025, the remaining goodwill amounts to EUR 8,073.05k (December 31, 2024: EUR 9,468.93k¹²), of which EUR 7,707.17k relates to the investment in Software Circle plc entered into in the first half of 2024. The negative consolidation difference arising in fiscal years 2021 and 2024 amounts to EUR 119.58k as of June 30, 2025 (December 31, 2024: EUR 132.92k) after amortization in the current financial year.

The **goodwill** identified as part of the purchase price allocation developed as follows during the reporting period (figures in EUR thousand):

	Opening balance as of 01/01/2025	Additions / Disposals (from changes to the scope of consolidation) Inflow in the financial year	Effects from currency translation	Depreciation for the financial year	Closing balance as of 06/30/2025
From purchase price allocation	174,445.47	226,122.99 / -4,880.98	323.69	-12,014.80	383,996.36
From individual financial statements	1,064.95	485.55 / -97.16	0.10	- 257.03	1,196.42
Total	175,510.42	226,608.54 / -4,977.92	323.78	-12,271.83	385,192.78

¹² Correction of the value stated in the annual report of EUR 7,123.60k

FINISHED GOODS AND PRODUCTS FROM PURCHASE PRICE ALLOCATION

The order and contract backlog identified as part of the purchase price allocation developed as follows in the first half of 2025 (figures in EUR thousand):

Opening balance as of 01/01/2025	Additions during the financial year	Currency-related changes	Reversals during the financial year	Closing balance as of 06/30/2025
2,728.31	5,299.26	0.00	-1,700.94	6,326.63

FINISHED PRODUCTS AND GOODS FROM PURCHASE PRICE ALLOCATION

Trade accounts receivables amounting to EUR 20,217.37k (December 31, 2024: EUR 10,342.08k) relate to the operating subsidiaries included in the interim consolidated financial statements.

The receivables from **companies in which a participation is held** amounting to EUR 274.74k (December 31, 2024: EUR 332.02k) relate to loan receivables from minority interests within the Group structure. The interest accrued on these shareholder loans may, at the discretion of the subsidiaries, be either retained or disbursed. In principle, the subsidiaries plan to pay the interest. The interest receivables are, therefore, also reported under current assets.

CREDIT BALANCES AT CREDIT INSTITUTIONS AND CASH ON HAND

Cash and cash equivalents amounting to EUR 52,204.62k (December 31, 2024: EUR 58,507.77k) consist predominantly of bank balances. Cash on hand amounts to EUR 31.62k (December 31, 2024: EUR 23.51k). An amount of EUR 8,344.97k (December 31, 2024: EUR 26,490.11k) relates to the cash and cash equivalents of CHAPTERS Group AG as the parent company, while the cash and cash equivalents at subsidiary level amount to EUR 43,589.65k (December 31, 2024: EUR 32,017.66k). No cash pooling takes place. A detailed analysis of changes in cash and cash equivalents can be found in the Consolidated Cash Flow Statement.

ACCRUED AND DEFERRED ITEMS

Deferred income items are recognized as part of the preparation of the consolidated half-year financial statements for payments already received in the first half of 2025 by the operating subsidiaries for services covering the entire financial year. These primarily relate to revenues from software maintenance contracts. As of June 30, 2025, deferred income items amount to EUR 23,559.76k (December 31, 2024: EUR 10,182.91k). The majority of this deferred income will be released in the second half of 2025.

Prepaid expenses amount to EUR 2,199.22k (December 31, 2024: EUR 1,808.44k). Of this, EUR 0.00k (December 31, 2024: EUR 528.39k) relates to expected interest expenses from the amortization of the discount on the perpetual bond issued in June 2020 at the level of CHAPTERS Group AG as the parent company.

EQUITY

The detailed changes in equity are reported in the Consolidated Statement of Changes in Equity.

The **subscribed capital** of CHAPTERS Group AG amounts to EUR 23,457.25k as of the reporting date (December 31, 2024: EUR 22,986.03k) and is divided into 23,457,246 no-par value bearer shares. The capital increase by cash contribution of EUR 471.22k, resolved on March 31, 2025, was registered on April 7, 2025. As a result of the capital increase through cash contributions, the **capital reserve** increased by EUR 16,021.45k to EUR 245,931.18k (December 31, 2024: EUR 229,909.73k).

After taking the capital increase into account, the authorized capital of CHAPTERS Group AG (Authorized Capital 2024/I), as resolved by the Annual General Meeting in 2024, amounted to EUR 879.45k as of June 30, 2025 (December 31, 2024: EUR 1,350.67k).

PROVISIONS

Provisions amounting to EUR 42,931.09k (December 31, 2024: EUR 19,203.59k) are composed as follows:

	06/30/2025 in EUR '000	12/31/2024 in EUR '000
Provisions for pensions and similar obligations	3,802.72	0.00
Tax provisions	9,081.76	7,028.76
Other provisions	30,046.62	12,174.83
thereof for annual accounts and audit	865.51	699.36
thereof for personnel costs (share-based compensation not included)	3,141.36	1,302.96
thereof for share-based compensation at CHAPTERS Group AG level	14,786.36	3,655.57
thereof vacation accruals	1,854.68	1,240.99
thereof for guarantees	10.80	84.34
thereof for potential additional purchase price payments (earn-outs)	2,938.82	2,285.00

LIABILITIES

Liabilities amounting to a total of EUR 223,892.22k (December 31, 2024: EUR 86,741.35k) include EUR 0.00k (December 31, 2024: EUR 16,000.00k) relating to the **perpetual bond** issued by CHAPTERS Group AG in May 2020. The bond was fully repaid by the Company in May 2025.

The **liabilities to credit institutions** mainly comprise acquisition loans taken out to finance the acquisition of operating subsidiaries. These loans are raised either at the level of the acquisition companies or by the operating companies themselves. Where financing was obtained at the level of the acquisition company, it is usually secured by the pledge of shares in the operating company by the acquisition company or by a guarantee by the operating company in favor of the lending bank. The amount secured by share pledges totals EUR 66.49 million (December 31, 2024: EUR 7.22 million). There is no joint liability of other Group companies or CHAPTERS Group AG ("ring-fencing"). In some cases, interest rate hedging transactions have been concluded for the loans. The funds are used in part to repay shareholder loans provided

by CHAPTERS Group AG as the parent company for the acquisitions.

Trade accounts payable amounting to EUR 6,735.07k (December 31, 2024: EUR 4,338.08k) mainly comprise liabilities for goods and services received at the level of the operating subsidiaries.

Other liabilities include **seller loans** amounting to EUR 99,637.15k (December 31, 2024: EUR 14,246.38k), arising from deferred purchase price payments in connection with the acquisition of operating companies.

Also included are **liabilities to minority shareholders** amounting to EUR 2,997.60k (December 31, 2024: EUR 2,797.54k). The shareholder loans from minority shareholders are granted on essentially the same terms as the shareholder loans of CHAPTERS Group AG.

The maturities of the liabilities are listed in the following schedule of liabilities.

		Total in EUR '000	Up to 1 year in EUR '000	From 1 to 5 years in EUR '000	More than 5 years in EUR '000
Bond	06/30/2025 12/31/2024	0.00 16,000.00			16,000.00
Amounts owed to credit institutions	06/30/2025 12/31/2024	100,707.17 43,351.25	6,210.62 6,620.90	24,288.17 33,347.13	70,208.37 3,383.21
Advance payments received on orders	06/30/2025 12/31/2024	3,230.53 162.26	3,230.53 162.26		
Accounts payable	06/30/2025 12/31/2024	6,735.07 4,338.08	6,735.07 4,338.08		
Other liabilities	06/30/2025 12/31/2024	113,219.44 22,889.77	46,636.20 14,826.05	4,533.00 5,266.19	62,050.24 2,797.54
thereof from seller loans	06/30/2025	99,637.14	36,051.51	4,533.00	59,052.63
thereof from minority shareholders	06/30/2025	2,997.60			2,997.60
thereof from taxes	06/30/2025	5,837.97	5,850.67		
thereof from social security	06/30/2025	794.31	794.31		
Liabilities	06/30/2025 12/31/2024	223,892.22 86,741.35	62,812.42 25,947.29	28,821.17 38,613.31	132,258.60 22,180.75

DEFERRED TAX LIABILITIES

The recognized deferred tax liabilities primarily result from the purchase price allocation in the course of preparing the interim consolidated financial statements and developed as follows during the reporting period:

Opening balance as of January 1, 2025 in EUR '000	Additions / Disposals in the fiscal year in EUR '000	Outflows in the fiscal year in EUR '000	Currency-related changes in EUR '000	Closing balance as of June 30, 2025 in EUR '000
8,853.00	5,169.20 / -611.59	-1,376.52	30.09	12,064.18

Deferred tax assets amounting to EUR 1,502.00k (December 31, 2024: EUR 1,485.70k) include EUR 146.00k arising from internally generated intangible fixed assets capitalized in the individual financial statements of a subsidiary, which are depreciated for tax purposes in accordance with local regulations. In the interim consolidated financial statements, internally generated intangible fixed assets are not capitalized.

An amount of EUR 1,356.00k (December 31, 2024: EUR 1,360.56k) of the deferred tax assets results from a lower valuation of property, plant and equipment under the purchase price allocation compared with the carrying amount in the separate interim financial statements of the relevant company.

CONTINGENT LIABILITIES

As of June 30, 2025, contingent liabilities amounting to EUR 872.15k (December 31, 2024: EUR 838.90k) exist from a guarantee for an earn-out payment (amounting to EUR 330.00k) and in relation to maximum liability commitments assumed for leasing and supplier contracts of subsidiaries. Based on the subsidiaries' business performance, utilization of these guarantees is not expected.

E. Notes to the Consolidated Income Statement

Due to the Company's strong acquisition-driven growth, the consolidated half-year financial statements include, for comparison purposes, both the consolidated income statement as of June 30, 2024, and the consolidated income statement as of December 31, 2024. Unless otherwise stated, the changes shown below refer to the prior-year period from January 1, 2024, to June 30, 2024.

REVENUE

Revenue is generated primarily from the sale of services as well as software licenses and related maintenance contracts. The majority of revenues

are generated in Germany. Approximately 14% of revenues are generated in other European countries, and approximately 5% in Switzerland.

Consolidated revenue totals EUR 70,963.65k (prior-year period: EUR 50,020.76k), of which EUR 29,734.75k relates to the Public Sector segment, EUR 24,151.19k to the Enterprise segment, EUR 9,733.92k to the Financial Technologies segment, and EUR 7,292.79k to the Other segment. Revenue from holding companies (where not intra-group) amounts to EUR 51.00k (prior-year period: EUR 39.00k).

OTHER OPERATING INCOME

	01/01/- 06/30/2025 in EUR '000	01/01/- 06/30/2024 in EUR '000
Ordinary operating income	1,243.26	576.10
Income from the disposal of and write-ups of fixed assets	14,903.25	2,592.19
Income from the reversal of provisions	108.77	2.12
income for other accounting periods	215.97	170.89
Income from currency translation	568.01	2.61
Ordinary operating income	17,039.26	3,343.91

Ordinary operating income includes income from benefits in kind amounting to EUR 335.09k (prior-year period: EUR 223.64k).

is non-cash income resulting from the disposal of past loss carryforwards (offset against the disposal of profit carryforwards where relevant).

Income from the disposal and write-up of non-current assets includes income from the sale of securities by CHAPTERS Group AG, amounting to EUR 3,798.68k (prior-year period: EUR 2,488.41k), of which EUR 1,136.00k relates to write-ups (prior-year period: EUR 219.47k). Income from the disposal of companies from the scope of consolidation amounts to EUR 11,104.06k, of which EUR 1,227.37k

DEPRECIATION AND AMORTIZATION

INCOME FROM OTHER SECURITIES AND LOANS
CLASSIFIED AS FINANCIAL ASSETS

Income amounting to EUR 123.43k (prior-year pe-
riod: EUR 55.83k) includes EUR 52.03k in dividends
received by CHAPTERS Group AG and EUR 70.55k
from interest on loans from CHAPTERS Group AG
to associated companies.

OTHER INTERESTS AND SIMILAR INCOME

Other interest and similar income totaling EUR
634.90k (prior-year period: EUR 548.64k) mainly
results from interest on demand deposits and
interest rate hedging transactions.

DEPRECIATION ON FINANCIAL ASSETS

Write-downs on financial assets amounting to EUR
816.81k (prior-year period: EUR 750.21k) result from
extraordinary write-downs on a loan to an associ-
ated company in the amount of EUR 788.91k and
impairment losses on securities held by CHAPTERS
Group AG as the parent company within the scope
of liquidity management in the amount of EUR
27.73k.

INTEREST AND SIMILAR EXPENSES

Interest and similar expenses amount to EUR 6,047.80k (prior-year period: EUR 2,513.21k) and comprise interest expenses at the level of CHAPTERS Group AG as the parent company, amounting to EUR 415.05k (prior-year period: EUR 959.26k), and interest expenses at the level of the subsidiaries, amounting to EUR 5,632.75k (prior-year period: EUR 1,553.95k). Of the interest expense at the level of CHAPTERS Group AG, EUR 400.30k relates to the interest expense for the perpetual bond until May 2025. At the subsidiary level, interest expenses mainly relate to acquisition loans raised by the companies to refinance the acquisition of subsidiaries, with a smaller portion attributable to interest payable to minority shareholders.

TAXES ON INCOME AND EARNINGS

Taxes on income and earnings are paid at the level of the individual companies. Income tax groups regularly exist between the acquisition company and the operating company in which it has a direct stake. No other tax group relationships exists, meaning that losses from other Group companies cannot be offset.

INCOME ATTRIBUTABLE TO OTHER SHAREHOLDERS

Income attributable to other shareholders includes a loss share of EUR 1,763.62k (prior-year period: EUR 1,431.94k), presented net of shares in profits and losses. The share of profit attributable to other shareholders amounts to EUR 3,649.90k (prior-year period: EUR 1,618.38k) and is offset by a loss share of EUR 5,413.52k (prior-year period: EUR 3,050.32k).

F. Other Information

EMPLOYEES

The average number of employees in the first half of 2025 was 1,080 (prior year: 805). For companies that became part of the consolidated group in the 2025 financial year, employees are included on a pro rata basis for the period during which the company was part of the Group. Managing directors and, in the case of CHAPTERS Group AG, members of the Management Board are not included in the calculation of this figure.

The average number of employees is distributed as shown in the following overview. With the exception of CHAPTERS Group AG, the reported employee figures also include employees of the companies in which the listed entities hold a majority interest.

	06/2025	12/2024
CHAPTERS Group AG	13	5
CHAPTERS Software GmbH (previously: Ookam Software GmbH)	342	300
NGC CNC Beteiligungen GmbH (previously included in the numbers for NGC Nachfolgekapital GmbH)	39	33
Blitz F25-951 GmbH (previous year: Fintiba GmbH)	108	72
Altamount Software GmbH	140	36
mlog Capital SAS	83	34
CarMa Holding GmbH	27	29
Waterkant Software GmbH	87	26
CHAPTERS Switzerland Software GmbH	71	19
Kältehelden GmbH	17	16
Companies that are no longer part of the Group as of June 30, 2025	153	235
Total	1,080	805

OTHER FINANCIAL COMMITMENTS

As of the reporting date, other financial commitments from rental and lease agreements amount to EUR 11,975.27k (December 31, 2024: EUR 6,467.11k).

G. Supplementary Report

Between June 30, 2025, and the preparation of the consolidated interim financial statements, the subsidiaries of CHAPTERS Group AG acquired interests in six additional companies—two based in France and four in Germany. Three of these transactions were bolt-on acquisitions that complement the customer and product portfolios of existing Group companies.

The total investment volume for the transactions mentioned above amounts to EUR 19.3 million, of which EUR 17.7 million was financed from the equity of CHAPTERS Group AG and its subsidiaries, and EUR 1.4 million was initially deferred in the form of seller loans with the remainder being financed by debt. Agreed upon performance-based earn-out payments are not included in this consideration.

In addition, a capital increase was carried out at Frankfurt International Bank AG, for which CHAPTERS Group AG provided additional funds of EUR 2.6 million.

In August 2025, CHAPTERS Group AG placed the first tranche of a new bearer bond with a nominal amount of EUR 32 million. The bonds are unsecured and carry a fixed coupon of 7.00% p.a., payable semi-annually on February 8 and August 8, starting February 8, 2026. The issue was made at par on August 8, 2025, and redemption at par is scheduled for August 8, 2030. The bond is structured as a framework facility of up to EUR 100 million in total. Refinancing of shareholder loans through bank financing at the subsidiary level provided the Group with approximately EUR 9.0 million in additional funds.

Existing seller loans granted to Group companies of CHAPTERS Group AG in connection with transactions from previous months and years were repaid in the amount of EUR 15.94 million.

In September 2025, the Company resolved to carry out a capital increase in kind through the issuance of 384,906 new shares. The contribution in kind consists of a loan receivable from a seller loan receivable in the amount of EUR 13,471,710.00 in connection with the merger of Fintiba GmbH and Expatrio Global Services GmbH. Registration of the capital increase in kind has not yet taken place.

Review Certificate

to CHAPTERS Group AG

We have reviewed the condensed interim consolidated financial statements—consisting of the consolidated balance sheet, consolidated income statement, consolidated statement of changes in equity, consolidated cash flow statement, and condensed notes to the consolidated financial statements—and the interim group management report of CHAPTERS Group AG, Hamburg, for the period from January 1, 2025 to June 30, 2025. The preparation of the condensed interim consolidated financial statements and the interim group management report in accordance with the provisions of the "General Terms and Conditions of Deutsche Börse AG for the Open Market of the Frankfurt Stock Exchange" and German commercial law is the responsibility of the company's legal representatives. Our responsibility is to issue a certificate on the condensed interim consolidated financial statements and the interim group management report based on our review.

We conducted our review of the condensed interim consolidated financial statements and the interim group management report in accordance with the German standards for the review of financial statements established by the Institute of Public Auditors in Germany (IDW). According to these standards, the review should be planned and performed in such a way that we can exclude with reasonable assurance, based on critical assessment, that the condensed interim consolidated financial statements and the interim group management report are not in material misstatement in accordance with the provisions of the "General Terms and Conditions of Deutsche Börse AG for the Open Market of the Frankfurt Stock Exchange" and German commercial law. A review is primarily limited to interviews with company employees and analytical assessments and therefore does not provide the same level of assurance as an audit.

As we have not conducted an audit in accordance with our mandate, we are unable to issue an audit opinion.

Based on our review, we are not aware of any facts that would lead us to believe that the condensed interim consolidated financial statements and the interim group management report have not been prepared in accordance with the provisions of the "General Terms and Conditions of Deutsche Börse AG for the Open Market of the Frankfurt Stock Exchange" and German commercial law.
